Rules for Kennel Name Registration and Use of Kennel Names

Fill out the above form and submit to the Registrar along with a fee of **U.S. \$30.00** to **Akbash Dogs International**. Canadian members may buy a postal money order made out in U.S. funds, but may not send a check in U.S. funds from a Canadian bank. Alternatively, payment can be made with PayPal. See below for details.

Kennel Names must be used as a prefix to register pups produced by that kennel.

No other breeder or owner may use this Kennel Name once it has been registered with ADIR.

Only the owner of the dam may use their Kennel Name in the naming of dogs when used as a prefix. A Kennel Name may be attached as a suffix when that kennel acquires a pup from another breeder's kennel.

The Kennel Name must be included in the naming of the dog, which has a limit of four words, not including the preposition "of".

Kennels Names remain with dogs forever.

Owner Identification Letters are to be used when tattooing dogs for registration and identification (see Tattoo Code information sheet). Three letters are typically used; that is the maximum allowable. For instance, North Wind Kennels may use the letters NWK to identify their dogs. If letters are not selected by the breeder, the Registrar will assign them. Please check with the Registrar before tattooing any pups to make sure the letters you select have not already been assigned.
